Stocks of frozen yolk posted the only increase in January, up 19% from last month and 3% above the level of a year ago Frozen white volume in storage dropped 20% for the month but was 2% above levels of a year ago Stocks of unclassified eggs also declined 8%, 17% over January 2019, and decreased share of stocks by 1% to 42% of cold storage stocks

### **Passive, Aggressive?**

Stocks don't go up because of good news or because they're a good value They go up because someone is buying them and willing to pay up as they buy more shares than are for sale at the current price At the most basic level, for a stock to go up, someone somewhere has to enter a BUY order Once we understand that, we can then go
